S. Rosenberg

The Scientific Revolution

The Changing Concept of the Universe

Directions: Using your textbooks, the Internet, and each other, and answer the following questions. SiR will be checking at the start of the next class period to make sure you've done this work.

1. What was the Ptolemaic concept of astronomy?
2. What was the Copernican concept of astronomy?
3. What was the Christian vision of the world based on Genesis?
4. What factors limited the immediate impact of the new science on the masses?
5. What is the Scientific method?
6. What was Galileo's mechanistic concept of the universe?
7. How did Sir Isaac Newton summarize the achievements of the Scientific Revolution?
